A Veritable Bluebeard Discovered in California.

ENGLISH VIEWS OF HAWAIIAN AFFAIRS

A Wholesale Cut to Be Made in the War Department—Bank Wreckers in More Trouble—Fraudulent Chinese Registration—Talmage's Tabernacle Burns.

YREKA, Cal., May 15.—George Decker, a wealthy rancher, will be indicted for the murder of his wife, Margaret E. Decker, and Nevada Decker, a babe, twenty-seven years ago, and Rosie Stone, a granddaughter, about eight years ago. Ten murders are laid at Decker's door, as well as other foul and unnatural crimes committed at various times throughout the last thirty years. Besides the three named, the list comprises Edward Stone, who was Decker's second wife's son-in-law; Benjamin Decker, son of Caroline Goodrich Decker, his second wife; a four-year old son of Edward Stone, a hired man; a man in the Sacramento valley, name unknown, and a man in Illinois, name unknown. Decker killed his first wife and child in 1867, butchering them with his own hand, and buried their bones on top of a high ridge. Their discovery a short time ago crystallized the belief previously prevailing that he was guilty of many atrocities, and led to his arrest. After his first wife's death he married a widow named Goodrich and lived with her over twenty years, and is believed to have gotten rid of her finally in 1890 by poison. He disposed of one child who bothered him in 1886.

FRAUDULENT CERTIFICATES

Being Issued to Chinese Waiting to Enter the United States.

WASHINGTON, May 14.—It is alleged that the smugglers of Chinese are selling registration certificates to Chinese who are now waiting in Canada and Havana to get into the United States. Large numbers of registration certificates, it is claimed, are being sent to China to secure entrance into the United States of Chinese who have never been here before. The frauds are perpetrated by Chinese who register, and it is alleged that some of them have registered from twice to a score of times. Professional witnesses have been found who have identified as many as four hundred Chinese as having to their personal knowledge lived at least two years in this country. These witnesses have admitted under oath that they have been making a good thing out of their swearing for Chinese applying for certificates.

ITALY'S WAR BUDGET.

The Situation Extremely Complicated if Not Critical.

ROME, May 14.—The debate in the Chamber of Deputies this afternoon was exceedingly stormy. The opposition reiterated all their objections to the war budget and insisted that several items should have been cut down. General Moccioni spoke repeatedly to refute the arguments against the budget. On the vote the government got only nine of a majority, and the opposition set up a hideous din of jubilation. The situation is extremely complicated, if not critical. The popular hostility to the military expenditure is very strong, and the opposition leaders are making the most of it without respect to consequences. The semi-official newspapers hint that a dissolution is likely. After the vote the Chamber was found to have been without a quorum. The vote therefore was nullified, and the whole question will be debated again tomorrow.

BIG FIRE IN BOSTON.

Conflagration Covering a Greater Area Than the Fire of 1872.

BOSTON, May 15.—Some small boys set themselves up as rivals to Mrs. O'Leary's cow on the Boston base ball grounds this afternoon and as a result the city was visited by the biggest fire since Thanksgiving day, 1892, and a conflagration covering a greater area than any since the memorable one of 1872. While the financial loss is not a circumstance to that of the above mentioned fire, yet in less than three hours some twelve acres of territory were burned over, and one thousand families were rendered homeless. The loss is placed at about \$500,000. Several persons were injured but none severely.

MORE ENGLISH NEWS.

How the Britishers "At Once" Look at the Americans Here.

LONDON, May 15.—A letter from Honolulu dated April 10th, says: "At last the islands are still in a terrible condition. It is difficult to even say what nationality is claimed by the Provisional Government or its principal supporters. One day they are enthusiastic American patriots, next day they are Hawaiians, indignantly repudiating the idea of American interference. Their organ habitually refers to Cleveland, Gresham, Blount and the minister resident in a style at least unusual when addressed to statesmen of a friendly power."

GRESHAM AND SAMOA.

His Report on Affairs There Gives Satisfaction.

BERLIN, May 12.—Secretary Gresham's paper upon Samoa has given great satisfaction. It concludes that the United States Government will support the German protectorate. Exception, however, is taken to that part of the report which gives the impression that the United States at the Berlin conference did not favor the arrangements arrived at. It insisted that the American delegates, Messrs. Kasson and Phelps, were greatly responsible for this arrangement, and Mr. Phelps's appointment as United States Minister to Germany in 1889 was regarded as a recognition of his success in negotiating the Samoan treaty.

The German newspapers which are opposing Prince Bismarck are trying to drag him into the controversy by declaring the state of affairs at Samoa to be due to the so-called blundering work of his son, Count Herbert Bismarck.

The nature of the German naval reinforcements which are to be sent to Samoa are not yet officially announced, but it is generally understood that sealed orders were recently sent to the commander of the German warship Buzzard, and that these orders in substance were that the Buzzard was to proceed to Samoa immediately. It has also been stated that three other ships, the Alexandrine, Marion and Arkon are to follow the Buzzard to Samoa.

The Monterey's Plates.

SAN FRANCISCO, May 15.—Despite assertions to the contrary, it may be authoritatively stated that the investigation of the plates of the coast defense vessel Monterey is still going on. Photographs of the defective plates have been taken from the model of the vessel and mechanics who have been in the employ of the Carnegie Company are in the city ready to point out places where the armor is faulty.
